

RAFAEL MANDEL

SOFTWARE ENGINEER

PERSONAL PROFILE

I have worked in the publishing market, developing organizational skills, attention to detail, and critical analysis. During my transition to the technology field, I deepened my knowledge in software development with Python and system implementation

EXPERIENCE

Freelancer, *Sao Paulo - Brazil*

Python Developer

August 2024 - Present

Project: Personal Expense Tracker ([link](#))

- A simple command-line Personal Expense Tracker built with Python and SQLite. This project allows users to manage their financial transactions by adding incomes and expenses, viewing their current balance, filtering transactions by date, and exporting data to a CSV file.
- Tecnologias: **Python 3, SQLite3, CSV**

Project: Task Manager ([link](#))

- This is a simple terminal-based task manager that allows you to add, list, complete, and remove tasks. The project uses Python and SQLite3 to store data persistently.
- Tecnologias: **Python 3, SQLite3**
